PEAK
TECHNOLOGY

Our products inspire helicopters, fire Formula 1 cars, launch rockets into space, electrify aviation, save hydrogen and win the 24 hours of Le Mans. Challenges drive us.

In order to enhance our team we are looking for an
CNC SPECIALIST WITH PROGRAMMING KNOWLEDGE (F/M)

WE ARE LOOKING FOR

A CNC specialist with programming knowledge, who feels comfortable in the field of prototype constructions and small series, who shares the passion for technology with us. Your goal is to turn every single part into a masterpiece with perfection and you are motivated to produce components for the most demanding customers in a well-equipped production environment.

YOUR TASKS

- Production of high-precision prototypes and small series components
- Independent programming and optimization of CNC programs (Hypermill)
- Reading and understanding of construction drawings
- Testing and measuring of components

YOUR PROFILE

- Completed vocational education (e.g. toolmaking technician)
- Professional experience as CNC specialist (5-axis) desirable
- Profound knowledge of CNC programming (Hypermill)
- Readiness for shift work
- Independent, structured and accurate working style
- Strong quality awareness

WE OFFER

A wide-ranging job in a small and powerful team of specialist for a motivated and dynamic personality. Beyond that we offer you:

- A gross annual salary of between € 37.000 and € 48.000, depending on qualification and experience. (based on collective agreement „kunststoffverarbeitendes Gewerbe“)
- Well-equipped infrastructure (Hermle, WFL, Kern, Heidenhain, Siemens)
- A versatile job in a successfully growing company
- Technical challenges and innovations in motorsports, aviation and space industries
- Various training opportunities to improve professional and personal development
- Familiar working atmosphere with a flat hierarchy
